Chairman

SUBJECT: Federal Goals for the National Capital Region

We are pleased to forward for your information and reference, a copy of the Federal Goals for the National Capital, a Federal element of the Comprehensive Plan.

Federal elements of the Comprehensive Plan provide a framework for the various planning and programming activities of Federal agencies and departments in the region, and also provide a long-range Federal planning context for the preparation of agency regional (or system) plans, installation master plans, capital improvement program recommendations, and site and building plans for individual construction projects.

This adopted element reflects comments and suggestions received from 230 Federal, state, local, and regional agencies, as well as national and international agencies and citizen groups in the region. We appreciate all the helpful suggestions and contributions made which contributed to making this element a useful statement of Federal goals and objectives for the Federal Establishment and for the future growth and development of the National Capital Region.
